RE: Invitation to the official opening of the village scale groundwater desalination plants in the Omusati Region, 15th of October in Amarika and 16th of October 2010 in Akutsima

The research and implementation project CuveWaters together with the Ministry of Agriculture, Water and Forestry have the pleasure to invite you to the official opening of the village scale groundwater desalination plants in the Omusati Region. The plants in Amarika will be opened on October 15, the plants in Akutsima on October 16 by the honourable Deputy Minister Petrus Iilonga.

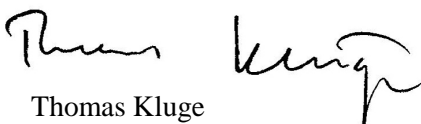

The desalination plants were constructed in a joint Namibian-German effort as solar-driven pilot plants to provide the local population with clean drinking water. This is an essential part of CuveWaters aim to find sustainable solutions for water supply and waste water management in the Cuvelai-Etosha Basin. The project supports the implementation of the national policy strategy in the Namibian water sector.

You find the program attached. To help us finalizing all necessary arrangements, kindly confirm your attendance by Tuesday, 12th of October to Irene Nunes

- by phone 061 377 500
- by e-mail irene.nunes@drfn.org.na
- or by Fax: 061 230 172

We look forward to your valued attendance.

Yours sincerely,

Thomas Kluge
